Wet 'n' Dry POLYETHYLENE LOCKERS

Robust, lightweight lockers

Wet 'n' Dry Lockers are designed for use in wet and damp environments or where there is a need for a robust and secure personal storage.

Non-corrosive polyethylene makes them ideal for washing out or hosing down, essential in working environments where cleanliness and hygiene are required.

The lightweight design of the locker allows for easy hanging onto wall-mounted battens or for lockers to be stacked together in multiple units.

Ideal for use in

- Food Industry
- Catering
- Fast Food Retailing
- Marine Environment
- Schools and Colleges
- Wet Area Sports Changing Rooms
- Damp/Dirty Manufacturing Areas

Wet 'n' Dry POLYETHYLENE LOCKERS

Easy to clean

■ Easy access to clean underneath lockers can be achieved by wall mounting the lockers.

■ Wet 'n' Dry non-corrosive polyethylene construction allows lockers to be washed or hosed down when required.

...and lockable!

■ Wet 'n' Dry Lockers are secured by a robust integral cam lock or by an optional padlock fitting.

Manufactured from tough, impact resistant, non-corrosive polyethylene, with a one piece body and double skinned door. The moulded design means there are no sharp edges, so minimising the danger of personal injury. The outer skin has an attractive textured finish, whilst the interior has a smooth seamless design, eliminating potential dirt traps in cracks and seams.

Doors are available in three different colours and feature built in ventilation slots and space for a number card.
